

Product Information Demotex A-2

Description	<p>Thin release agent to spray on mould pattern or core boxes.</p> <p>Demotex A-2 is a solution of active substances in a solvent mixture. This product contains organic silicon substances and is well suited for complex demouldings.</p>								
Field of use	<p>Moulding and core shop.</p> <p>Demotex A-2 is applicable to all common cold curable core and mould making processes, especially <u>cold-box process</u>.</p>								
Application	<p>Demotex A-2 is to use undiluted in supply condition.</p> <p>The release agent should be sprayed thinly and evenly on the clean pattern surface or core box. The coat is applied by conventional spray equipment by hand or automatically by spray units. If used properly, a multiple demoulding of mould or core is possible.</p>
